We would like to thank everyone who has signed up and is using the Brightwheel app. We have been using this app quite often to keep you, the parents, informed and up to date with your children in our care. We have sent mass messages throughout the time we started and have had great responses from the people using the app. We would like to inform you that when there is a mass message requiring a response that you respond directly to us through the Brightwheel App. This will help to make things less confusing and prevent any lost or miscommunicated information. We cannot stress enough that the best way to communicate with us is through the Brightwheel app and not our personal phones.
